LET'S PLAY TOGETHER!

One of the wonderful things about our Heartland Music Together community – aside from the music! – is the friendships that bloom inside and outside of class. We love seeing children hug each other at the “Goodbye” song, and we love hearing about play dates that families arrange after class. We sometimes have parents discover that they knew each other back in high school – or even as far back as kindergarten!

Let's build more connections! We are now assembling an **online** Music Together community directory, so families can find each other and play together. **Participation in this directory is entirely optional!** If you'd like to be included, please fill in your name and the contact info you'd like to share with others. **We'll include only the information you've indicated.**

NOTE – Even if you've already given us information for a directory, please fill out this form again – you may have new information to share, and we want to make sure we don't miss anyone as we move to the online format.

Date: ____/____/____ Class location: _____ Class day & time: _____

Parent / Caregiver name(s): _____

Enrolled child(ren)'s name(s)	Older / younger sibling name(s)
